

Emergency Response Plan

Volunteers Wanted

Nearly all emergencies affecting communities are supposed to be dealt with by an integrated multi-agency response. However, it is recognised that situations could occur (such as extensive flooding, storm damage, deep snow, power outage or a major incident), which could delay the arrival of outside assistance, requiring our community to help itself.

Recognising this, The Parish Council has developed an Emergency Response Plan (ERP) for the Village, with the aim of providing a framework to ensure an effective and robust approach to managing a major incident that may threaten the safety and welfare of the community. A revised ERP is shortly to be published and circulated.

As part of the Plan, a list of volunteers needs to be drawn up of those who have put their names forward as willing to give their time to help others in an emergency. If you would like to do this as well, then please complete the information below, and send it to:
