

Recycling bins to be removed from Clanfield

The 'bring bank' (recycling bins) on the Lower green are to be taken away. All the green bins and the glass recycling will be going. After a long period of requests for more considerate behaviour, the incidence of fly-tipping has increased. There is now a real health hazard from some of the inappropriate and non-recyclable waste that is being put there, and businesses are starting to deposit their waste to avoid charges at the WODC tips. The council 'blue' bins are collected every two weeks and should be sufficient for domestic recycling. If you have a large amount of cardboard (from a new bathroom or kitchen for example), WODC will collect on request, and, in addition, the PC is hoping to set up volunteer collection for those unable to go in a car to the larger recycling centres. The area on the Lower Green will revert to being only a Car Park.
